As this class of citizens is a namerous one in that section of country, and the feeling exhibited very strong and hitter. open hestilities are liable to hegin at any moment. What these may lead to eventually can be plainly seen. The supporters of the Liheral, or Justez government, having a strong majority, won'd, as soon as the first blow was etruck, drive their oppenents from their homes. Tho lutter would then have no other resort than to form themselves into guerilla bunds and prey upon the country, or to enter Mexico and join the Imperial namy. In all probability, fighting once begun, recruits for the Literal army would be rais d on our Pacific coset, and the present entangled Mexican question become thereby much more complicated. The Juarez supporters are firm friends of the United States Government, and the leading men among them express the deepest regret that the protection of the Stars and Stripes was not lo g since extended over their unfortunnte con try. In n few days wo shall probfurther in elligence to lay before ders in regard to this matter.

sickness from participating in the engagement at Ringgold, wherehy Cortina was driven across the Rio Grande. It is sald that Quiroga, commanding Videnzri's forces near Piedras Negras, has been defeated. This, and a counter romor that Juarez has folt it necessary to leave Monterey, need confirmation. Cel. WEDNESDAY, AUGUST 21, 1861. THE HON. JAMES GUTHBIE - A GREAT

SPEECH-THE TRUE SPIRIT AND THE TRUE Policy.-We republish in the Journal of this morning the great speech delivered by the Hon. James Guthris in Louisville on the twenty-second of February in 1863. We characterize the speech as great, and it is great indeed,-great in sentiment, great in wisdom great in humanity, great in foresight, and great in statesmanlike comprehension of ship that with each passing month has grown brighter and brighter until it shines like a pillar of light in this night of disauter and of

The speech of Mr. Guthrie, be it remembered. was delivered amidst the opaning scenes of the war, when victory had crowned the banner of the Union at Paintsville, at Middle Creek, at Mill Springs, at Honry, and at Donelson, when, in a word, victory was parching on our starry banner everywhere. The moment was a golden one. It was fraught with pence not merely honorable but glorious, Mr. Guthris seized it with the eagerness of a patriot and with the grasp of a statesman. His speech gave manly utterance to the full heart and the just mind of the people in that commanding juncture of the war. It was the right word at the right time. It nwakened a sympathetic response in all quarters, exceut in the high places of the government at Washington, npon whose incumbents, already steeled by fanatical ambition against the voice of country and of conscience, it fell without effect. The Administration turned coldly from the wise, patriotic, noble counsel of James Guthrie, and let the golden moment page away unimproved. Who now doubts, that, if Mr. Lincoln had adopted this counsel, the war would have been enied long ago, and the supremacy of the constitution again established more firmly than ever before? Who doubts, that, if James Guthrie or some patriot ann statesman like him shall be elected President in November, the war will be ended as if by magic, with still the same glorious result? No causid and enlightened man, and few men of any other description, however ignorant or prejudiced Not even G. more and Jaques doubt this, as we fully believe, though, with a mixture of pueri'e simp icity and of demoniacal reckless. ners, they are using the private and irrernon sible flourish sof the rabel chief as a manua of fanning the fires of this war, even now consuming everything most dear to freemen, into an endless and exterminatory

wicked. The prople can be deceived no longor either by their own passions or by the demagogues who play upon them. The days of abolition accendency are numbered. Let no patriot doubt this. The Chicago Convention, as we are thoroughly persuaded, will next Monday pronounce a name under whose spell the sway of abolitionism in our country will vanish forever, while peace and naity return to depart no more. God speed the consummation!

The Republican Party - Despate and DISAFFECTION THE ORDER OF THE DAY. - The | Such is indeed the underiable truth. Concord Monitor, the acknowledged organ of the Republican party in Naw Hampshire, gives | edy proposed for this rapid and universal tenout this note of despair:

heir counsels in the nation as well as i the State. But in national politics both wings of the dominant party seem to be coming to Old Abs. who was our first choice for the Presidency, and for whom we propose to vote, if he keeps the field, is gaining no strergth. The people still respect the honesty of his purposes; but they are coming to think that something more than good intentious are demanded of a national leader in such a crisis as the present. Ben Wade and Winter Davis ciamento which the crowded state of on-columns forbid us to publish. These are no mean antegonists, and they make a straight-cut issue with the President. We are of the opinion that it would have been wisdom on the part of the Republican party to have delayed their nomination until the results of the ennimer campaign were known, and the sentiments of the people could be anticipated t may not yet be too late to witndraw both

put no & fresh man who shall enlist the su mar ot every Republican on the track. The action of the Chicago Convention may be such as to make this course a condition of Republican successa. But all this, at the present time is mere speculation. We recognize the Bal-timore nomination as the regular Republican toket, and propose to support them with what ability we possess, nntil they are regularly suspended.

The Albany Statesman, a Republican organ In the Empire State, utters the same note with greater positiveness, or, rather, with entire positivenessa. The Statesman says:

There is only one way to prevent the Democra's from electing the next President, and that is, to have President Lucoln decline the ne min ation, his successor to be either General Gibbt, Sherman, Butler, or Hancock. Such a nemination would unite the party. Nothing elss ever will. Divided as the party. Nothing elss ever will. Divided as the party now is, between the friends of Lincoln, Fremont, Chase, Seward, and Weed, this party cannot avoid a most hamiliating defeat in November The catastrophe can yet be averted, but only by the declension of Mr. Lincoln. While Republican journals in the New En-

gland and the Middle States are sounding with variations this note of despair, and others in the same States are blowing more or less loudly the trampst of disaffection, Rapablican journals of the West are not behindhand in respect to either strain. Perha; a, however the Ann Harbor Jonrnal, the ablest Republican paper in the State of Michigan, is the most notewortby instance of Republican disaffection in the West. The distinguished Editer of this journal, Mr. E. C. Seaman, who represents the Whig element in the Republi can party of Michigan, opens a new volume of his paper with an address to its readers and patrons, in which he repudiates Lincola and Johnson, for the eegent reasons which he tha

The history of the past three years has confirmed me more and more in the opinion that the emancipation policy of the Administration has tended to divide and distract public opinion to destroy all confidence in the Administra tion among the loyal people of the borderslava Scates, and to alienato from the Federal Government nearly nll the loyal people of the South; that it has divided the people of the free States, and tended to nnite those of the slave States, and given them a fanatical zeal and energy, as persecuted patriots, fighting for for local and municipal appreciately—for the rights which they have enjoyed since the decation of our antional independence in 177 -of legislating for themselves in all munici-pal and polico matters, and regulating their own internal and domestic institutions and governmen's in their own way.

The restoration policy announced by the President in his last annual message, in effect ttempting to disfranchiso all the Southern peopls who will not, in addition to an oath of allegiance, awear to abide by his emanciation proclamation, has only added to our ifficulties by confirming the Southern paole in the belief that it is the settled deterrgrade them to the condition of political condage and enbserviency in which Ireland has been held by Great Britain for many canat Niagara Falls, shows a fixed determl use to e er into any negotiations for the on that the Southern States shall abandon

and feeling at the South, the people of the Confederate States very generally thinking that they have no inducements whatever to return to the Union—that their only hope is in the rebellion, and that they may as well die on the battle field, or be utterly crashed out by the war, as to submit to terms of restoration which strip them of their property and of their rights, and reduce them to a condition of political bondage. The Jatholic litish have been in nestee of rebellion or preparing for rebellion much of the time for more than two hundred years in consequences of the oppressive laws and system it British policy, by which they have been governed; and there never will be permanent peace in the country until nearly all the in-

people and community to adhere to the ral

cept in defence of their own rights, and i very extreme cases. I approve the law t

prohibit and punish polygamy among the Mormons in the Territory of Utah; but I could not approve the prosecution of a war to

war, and the sternice of numerous of thou-sands of lives, and the nerumulation of thou-eards of millions of debt, for the purpose of trying to compel the Confederats States to abandon and abolish elavery.

BRILLIANT EXPLOIT-CAPTURE OF A Grenitla Band, -A band of twenty-one gnerillas, that had been operating in Ohio and who presided over its destiny for eight county the past few days, on Sunday night years.

In this Farewell Address many lessons of the following consideration. and Ohio counties, and eamped about six miles from Morgantown. The Grayson county Heme Guaras learned of the presence of the gnerilles, and, speedily effecting an organizagnerilles, and, speedily effecting an organization, mounted their horses and started on a vicorcus pursuit. Tas guerills como was attacked about daylight on Monday morning The robbers were taken completely by sarpriso, and offered but feeble resistance. The Brayson Heme Gnards charged down upon them in gallant styls, wholly surrounding or set at nangut; that this has, to them and cutting of all avooues for escape, some extent, grown from sectional prin-Four of the guerillas were killed by the first lischerge of firearms, and the remainder, like cowards as they are, held up their hands pleading for mercy, and surrendered unconditionalty. This was a brilliant exploit, and would reflict credit on any veteran organization. The Home Guards of Grayson county ere composed of the right material, and they are an honor to our State. If we had more organizations possessed of their sterling character, the guerillas would sooo bo exterminated from the country, and order and quiet restored in Kentneky.

SHAMIFUL CONDUCT. - Day before yesterday as a lady, residiog on Fourth near Breekinridge street, was sowing at her chamber window, s steel was thrown into the room, strlking just above her head and shivering the glass about her person. Instantly throwing open the window, and, szeing four woll-dressed young men, and none otoers being in sight, the lady inquired if they knew who had thrown the stooe. They denied any knowledge of the matter sod passed on. A moment atterwards one of the cervants entered her mis reas's room to say she had seen one of these young gentlemer(?) throw the stone. and she was immediately sent in pursuit to earn where they went and who they were. mately she followed them only to way, up which street they proceeded. throwing of the steno into the window, f an accident, would have been excusable, ont the unblushing denial of the party who did it, leads to the conclusion that it was the result of culpable carclessness, if not firtentional malice, for which he deserves, and, were

RELEASEO. -Thomas E. Fields, Robert Abbott, Joseph Garrod, and G Ronnder were arrested in Trimble county on Friday last, on he representation of a man named Jackson who accured them with being guerillas, and charged them with having roobsd him of \$2,000 in money. They were brought to teis city and placed in prison, and had an examination before the Provest Marshal yesterday. It appears that they are citizens of Trimble ccuoiv, and no proof could be brought forward to show that they were guilty of any orime. Jackson failed to be prosont to prosecute the eise, and fac's were brought to light showing conclusively that he had talsely accused the parties. The charges were preferred to gratify a petty maliec. The four prisoners were released, and permitted to roturn to their homes yesterday afternoon.

We are sorry to learn that the efficiency of the regiment, by this movement, will be partially destroyed, as only a minority of the enlisted mon have enrolled themselves as veteraos. The command will be divided, the veterans returning to the State, and those refusing to re-enlist remaining at the front. The gallant mander of the regiment, Col. E. S. Watts, w in the city. The division deprives him of a command, as the veteran organization is not sufficiently strong in numbers to entitle him to a remuster on his commission. THE BORDER .- The New Albany Lodger of yesterday evening has nows from the lower border to the effect that all is again quietthe guerilla gangs that have been infesting the river counties having nearly all desappeared. On Saturday night a small gang visited Stephensport and that neighborhood, stealing such articles as they could find. Adsm Johnson has been driven into Tennessee, and a largo Federal force is still in pursnit of him. There is reason to believe that our border tronbles are ended, as the necessary force has been stationed along the rivor nut an end to the guerilla ontrages.

FROM LOWER EAST TENNESSEE -It appears from the latest intelligence received here that the rebel raider Wheeler has passed into lower East Tennessee, and cut the railroad between Calhoun and London. His force is estimated, n some quariers, at from five thousand to seven thousand, and it is alleged that ho is on his way to Kentucky. That this is so, we do not for a moment believe. If he can cross the Teon-ssee river, he will probably attompt to make a circuit similar to that he made some months ago, when he got severely punished for his andaeity.

The Kentneky Association of Teachers yesterday mct and organized, and, after some discussion upon "State Normal Schools," appointed a committee to memorialize the Legislature to establish an institution of such a character in this State. The Association then adjourned to meet this morning at nine o'clock, when gentlemen appointed to address the meeting will be present. Moses T. Browe, Erq, of Cincinnati, will address the Association at the chapel of the Male High School this evening at eight o'clock.

TRAIN FIRED INTO .- The up freight train on the Nashville Railroad, on Monday night, near Oakland, was fired into by a party of guerillas. There were three or four passengers aboard, but robody was hurt. In all, some twelve or fitteen shots were fired, many of the balls lodging lasido of the cars. It is not known to what command the scoundrels belonged. It is a great pity that a few ef hese villains cannot be canght, and treated to he punishment they so richly deserve.

THE SECOND KENTUCKY CAVALRY—Colonel
Watts.—A portion of the 2d Kentucky cavally have re-calisted as veterans, and, we appropriate with the second as veterans, and, we come several morths, and has now the discipling at once enter upon the work:

Of veterans and in record entire veterans and W. Smith Messes, Light E. I forced and of veterans, and in recent actions has displayed of veterans, and in recent actions has displayed a tenacity of purpose equal to the most roltable soldiers of history. I have confidence in them and in their leaders, and have not been impatient that they did not march to battle carlier. I have been surprised that they murched on each roads and through such weather, and gained such glorious victories. I have wished this war carried oo upon the moet elevated principles of Christian humanity, and fully up to the highest civilization of the sge I would have enrarmies strike boldly and himly with heart and sonl for the Consti nion and Union as our fathers made them in without any wanton destruction of human life, or of property, public or private; and, when the battle is over, the wounded, the dead, and also the prisoners, should be cared for as becomes a Christian and civilized psople. This day, if the power was with me, an am

nesty and free pardon should be proclaimed to cribed time give up their arms and the rebe suce, acknowledge the supremacy of th natitution and the laws, and agree to sub it to them.
I am asked what I would do with the leadets. I reply, I would leave them to the tri-inuals and the punishmen presented of the laws they have violated; but I am for the or of the Constitution and the sifety of the

In the strife.

My toticy would embrace all who are repentant. History records that the Jews, the favored nation of the Aimighty, again and again resisted his sacred laws, and wire egain and again chastised for their rehelitions acts. The scheme of salvation under out hely trieflying is based on recentance. When Gui ligion is based on repentance. When Go orgives tos repentant sinner, shall not man orgive his repentant fellow-man? Lot us

e present with us, that To err is ham in, to forgiva d'vine This is the tesebing of God's truth. The p the otton rebelled against Jehovah, but Jehovah him elf forgave the repentant sinner. This is the lesson of the Christian rollgion As we expect forgiveness for our offene s we must forgive. If these misgaided men, who ave taken up arms against the beat giver ount ever seen, repent and come back to the clickinee, let us receive them and show than the geodress and power of the nation in its lower to forgive. Those who repent of this rebelion, it pardoned, will not go wholly nucleonished. They will have to bear the burden f conscious guilt, the reproaches of those they avo blighted, and the widows and orphan

bey have made and cans d to mourn, and

I would deel so this aninesty and pardon as a war measure. It may draw thousands who feel that rebelion is not a remedy for existing or supported with, and are carnes by and be of or supported with, and are carnes by and be of or supported with a supported or them. Many of the second of the second or t nly await the time they may safely take I would declare the amnesty and pardon as of encial measure, as a me sure of commy n this most expensive a dwasteful civil war, believe it would be more efficiive in cetoring the Union than the most sign l retories our armies have obtained or shall brain. It it shorten the war but fifty or one

unared days, it would save to the nation ore than ten times the value of all the estates you could possibly confiscate in accordance with the conclination. You cannot or fiscate the estates of hon-combatants; the old men, the widows, the orphans, the insane, or the imbedie, from whatever enuse, are out of the reach of the most investrate enemies of the rebe ion. We ough not to waste and destroy the property of these whom we con't injend to punish as rebels. Their ca-tages are a part of the fixed capital of the naion, and we want it, as a part of the national apital, to increase the annual production of ne country, to meet the unusual taxation that must go with this war and follow it for many gears. I have spoken of and considered the co-restoration of the Constitution and the Union as a fixed fact, and have the most perfect consisting of it. READ WHO SAYS SE From Sic Ray, Levi G. Book, Paster of the Bautist Church, Femberton, M. J., formerly of the Borth nytist Church, Philadelphie. I have known Hosfiaod's German Bitters faverably for anomber of years. I have used them in my own amily, and have been as pleased with their effects that I was induced to recommend them to many others, and knew that they have operated in a cirliking beneficial manner. I take great pleasure in thus pellicly proclaiming this fact, and calling the attentiate of these affilted with the diseases for which they are recommended to these fitters, knewing from exparience that my recommandation will be custained. I do this more cheerfully as Hosfiaod's Bitters is makeded to benefit the affilied, and in "now a rame drink."

I therefore thank God and my friend for directing ma
